👀 3D Shape Recognition
Name That Shape!
Match names to shapes.
👀 **Draw a line from each 3D shape to its correct name!** Say each name out loud as you match it — sphere, cube, cone, cylinder, prism, pyramid.

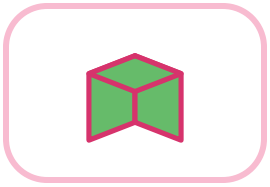

> 👩‍👧 **Parent tip: Saying names aloud is what locks them in. After matching, play "I spy a cylinder!" around the house — real-object spotting cements every shape name.**

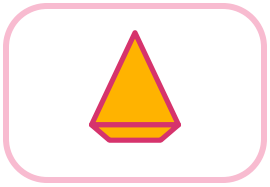

✏️ Match each shape to its name!

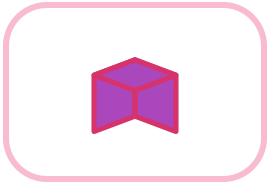

Cylinder

Pyramid

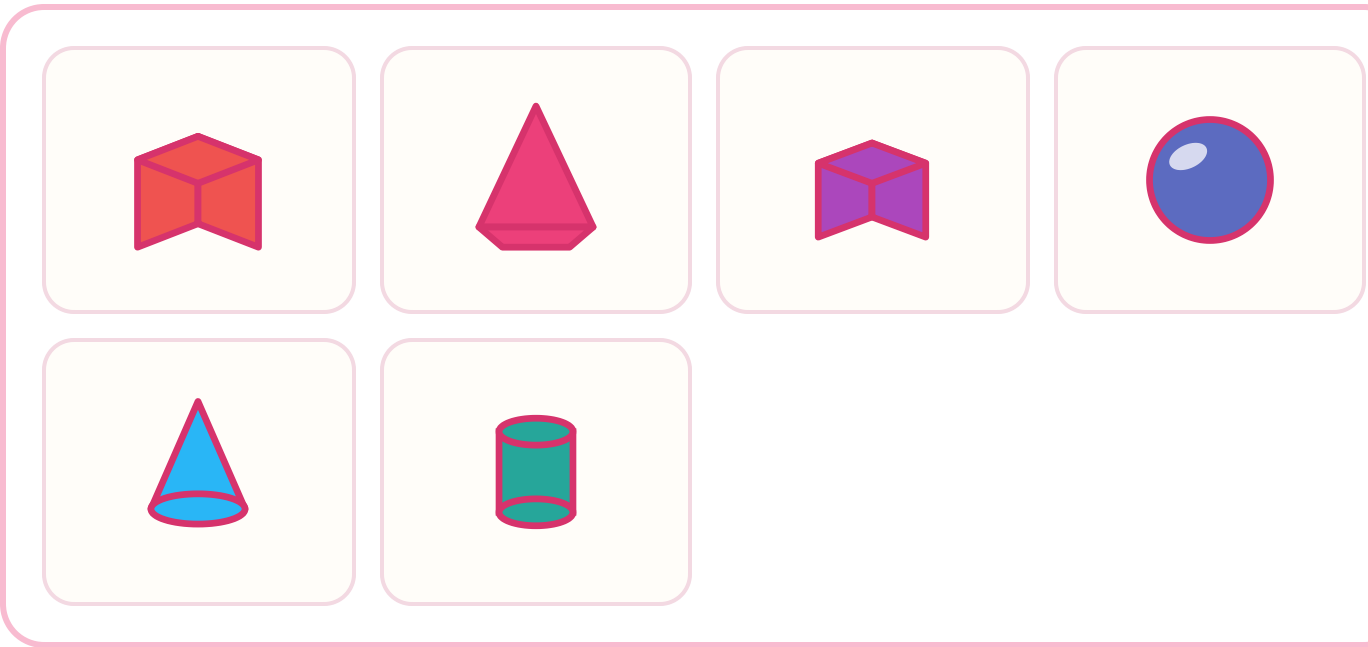

Sphere

Rectangular Prism

Cone

Cube

🕵️ Shape detective: circle the named shape!

📣 Call out: “Find the pyramid!”
