🧊 3D SHAPE EXPLORER

All About Cubes

Trace, count, build & find the cube!

✏️ Trace the big cube and its net. Then count the faces, edges & corners — and cut & fold the net to build your own cube!

TRACE THE CUBE

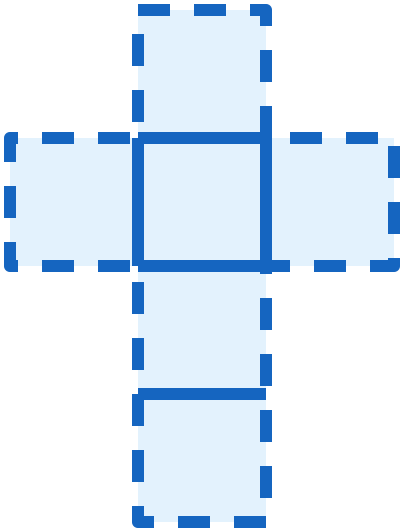

Faces — write it: .....

Edges — write it: .....

Corners — write it: .....

💡 A cube is a 3D square — every face is a square, and all its faces are the same size!

✂ CUT & FOLD — BUILD YOUR OWN CUBE!

1. Cut around the whole shape
2. Fold on every solid line
3. Tape the edges — you made a cube! 🎉

CIRCLE THE CUBES IN REAL LIFE

Dice

Ice cube

Box

Orange

Ball

🤔 Which ones are NOT cubes? (Hint: the orange and the ball are round!)

👨‍👧 Parent key: Faces 6 • Edges 12 • Corners 8 • Circle the cubes: Dice, Ice cube, Box
