〰️ CURVED LINES

Smooth & Curvy!

Trace rainbows, waves & arcs.

✏️ Trace each curve slowly without lifting your crayon. Smooth and steady — like drawing a rainbow across the sky!

👨‍👧 Parent tip: Curved tracing is harder than straight lines, so keep sessions short and celebrate smooth strokes. These curves are the exact movements needed for letters like C, S, and O.

🌈 Trace the rainbow arcs!

Rainbow!

Ocean waves!

😊 Trace the big smile!

Smile curve!

🔤 Curvy letters you are practicing for

🏆 Amazing! Spirals help little hands learn the curves in letters like O, C, and G.
