🎃 HALLOWEEN TRACING

Pumpkin Tracing Practice

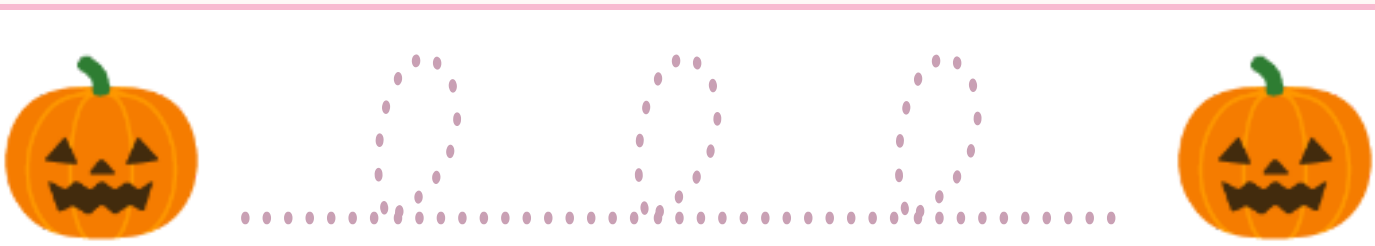

Follow the dotted lines from pumpkin to pumpkin!

✏️ **Trace each dotted line with your crayon. Go slow and steady!**

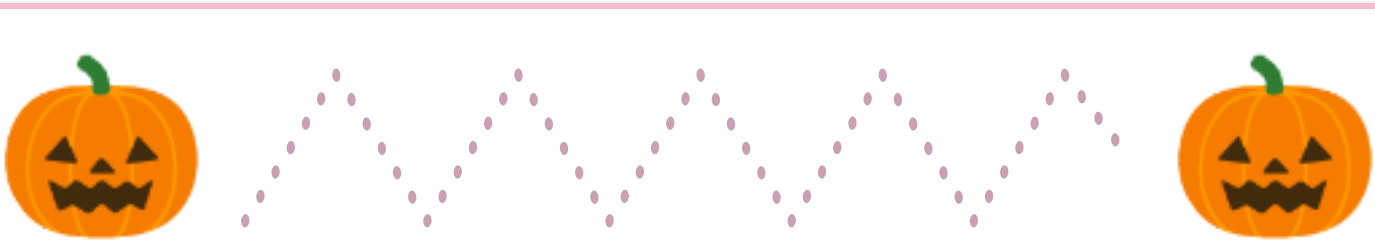

Wavy line — like a slithering snake!

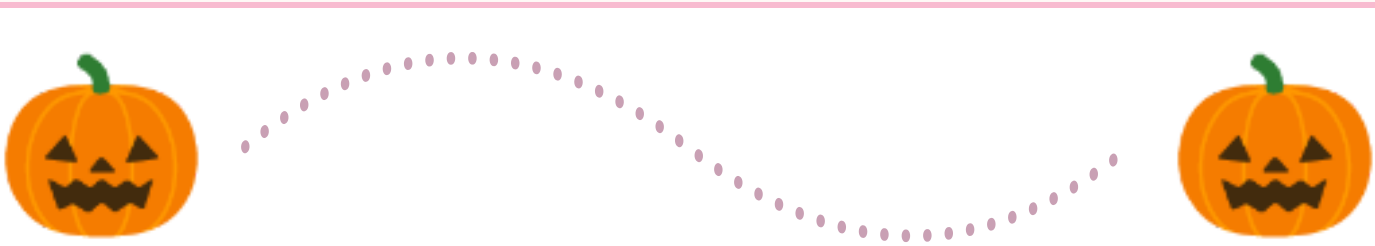

Loopy line — round and round!

Zigzag line — zip zap zoom!

Big curves — like a pumpkin's round belly!

🌟 **Spooktacular tracing! Your hand is getting so strong!**

👩‍👧 Parent key: dotted lines build pre-writing muscles. Let them trace in any color — accuracy matters less than the motion.
